ANTI-MOSQUITOES FLOOR SCRUBBER

FLOOR SCRUBBER ANTI-MOSQUITO STOP INSECT SMAPIU® is presented in tabs based on geranium and citronella, packed also with chlorine that creates the sanitizing solution.

In addition to clean floors, **FLOOR SCRUBBER ANTI-MOSQUITO STOP INSECT SMAPIU®** it can also be used by depositing a tablet directly in the WC, or in the biological pit, in the saucers, in the puddles, etc., and in all the humid places so much pleasant for insects. The tabs can also be dissolved in a classic trigger, for all other uses.

MINIROLL-ON

MINIROLL-ON is an **after-puncture line** composed of 4 items:

- a particularly soothing after-puncture **mosquito**;
- a specific after-puncture for **wasp stings**;
- an after-puncture (anti-stinging) specific to **jellyfish** bites;
- an insect after-puncture specific for the **delicate skins of children** from 0 to 3 years.

The entire assortment is totally made in Italy with highest quality CPNP certified materials and solutions; based on aloe vera, do not irritate, do not burn, and above all do not contain ammonia.

Specifically, the formulation of the **MINIROLL-ON JELLYFISH** is an anti-stinging because jellyfish bites are a burn for all intents.

While the formulation of the **MINIROLL-ON BABY** contains exclusively natural glyceric extracts of chamomile, mallow, calendula, aloe vera and menthol, does not contain ammonia, alcohol, allergens, parabens and dyes.
